

50 Years of Excellence

*World leader in Advanced Fastening Technology*

ND Industries is ISO9001:2000 / AS9001B / QPL-18240F Listed/ QSLM Registered

## For Immediate Release

### ND Industries turns up the heat to 500°F with ND Hi-Temp Patch

ND Industries®, an internationally known developer and supplier of high quality fastener coating products and services including ND Pell-It®, ND Strip®, ND SureTemp® and ND Patch®, announces the development of the latest in high temperature performance, pre-applied mechanical coatings, ND Hi-Temp Patch®.

ND Hi-Temp Patch is specially designed to **withstand temperatures up to 500°F** without compromise to its locking or sealing power.

Like other ND Insert and Patch Technologies®, ND Hi-Temp Patch uses mechanical force to create a more secure fastening lock, **resistant to vibration and shock related slippage**, while helping to **seal against gas and fluid fastening point leaks**. ND Hi-Temp Patch creates a positive lock by acting like a spring or dam between the threads of a seated fastener and its mating part. Even when not fully seated, ND Hi-Temp Patch provides a positive lock between fastening parts.

All ND Insert and Patch Technologies are **highly resistant to chemicals, water and motor fluids** and will not lose their sealing or locking properties even when exposed to commercial solvents, alcohol, gasoline, oil, caustic soda, jet fuel, and many others.

ND Hi-Temp Patch is Automotive and Military Approved.

ND Industries provides many top quality fastening and assembly related products and services, specializing in threadlockers, sealants, anaerobics, lubricants, adhesives and more, to a wide variety of industries, including automotive, electronics, aerospace, marine, construction, and appliance.

For more information on this and other ND products and services contact ND Industries' Corporate Offices at 1000 North Crooks Rd., Clawson, MI 48017. Phone 248-288-0000, Fax 248-288-0022 or email [info@ndindustries.com](mailto:info@ndindustries.com).
